Tampa, FL | aidenpalladino@usf.edu | (813) 720-9587 | LinkedIn | Portfolio

EDUCATION

University of South Florida Tampa, FL
B.S. in Cybersecurity, Bellini College of Artificial Intelligence, Cybersecurity, and Computing. *Expected Dec 2027*
Dean's List: Fall 2025, Spring 2026. GPA: 3.82/4.00.
Relevant Coursework: Information Security & IT Risk Management, Penetration Testing, Computer & Information Networks, Cloud Computing, Hands-on Cybersecurity, Data Structures & Algorithms, Intro to Databases, OOP

PROJECTS

AWS Cloud Networking Labs
- Designed a two-zone AWS network with public and private subnets, routing traffic through internet and NAT gateways
- Launched an EC2 web server locked down to HTTP-only access, keeping SSH closed to follow least-privilege principles

USF Hack The Box Capture the Flag
- Placed 31st on a 3-person team, solving 7 web exploitation, reverse engineering, forensics, and ICS security challenges

Suricata IDS Lab
- Built an intrusion detection lab on Kali Linux, capturing ping and Nmap scan traffic and analyzing it with Suricata
- Wrote a custom detection rule that caught ICMP traffic and ruled out a false alert caused by the capture process

SSH Brute-Force Log Analyzer
- Built a Python tool that scans Linux SSH logs and flags IPs with 10+ failed logins as likely brute-force attackers
- Tested the tool on a sample attack log and documented its blind spots, including slow attacks spread out over time

Hack The Box Labs
- Completed 20+ modules and 5+ machines focused on web exploitation, enumeration, and gaining initial access
- Exploited SQL injection and command injection flaws in web apps, and used Metasploit to gain shells on targets

EXPERIENCE

ReliaQuest Tampa, FL
Security Operations Labs *Oct 2026 – Present*
- Triage, investigate, and escalate alerts in support of ReliaQuest's Security Operations team
- Analyze security events and document findings in tickets using ReliaQuest's GreyMatter platform

True Food Kitchen Tampa, FL
Busser *May 2026 – Present*
- Support service for 100+ guests per shift, following sanitation procedures and a 30-second table turnover standard
- Coordinate with 10+ servers and kitchen staff to restock service stations and maintain floor safety during peak hours

Chick-fil-A Valrico, FL
Team Member *June 2023 – July 2024*
- Delivered fast, friendly service to 1,000+ customers daily as part of a high-volume team
- Handled orders and cash payments at a busy location averaging about $20,000 in daily sales

ACTIVITIES & LEADERSHIP

Delta Tau Delta Fraternity Aug 2024 – Present
Finance Chair, Secretary Assistant, Social Chair
- Tracked chapter budgets and expenses, maintained chapter records, and planned events for a 100-member chapter

Whitehatters Computer Security Club, USF Aug 2026 – Present
Member
- Participate in club meetings, tool demos, and hands-on security practice sessions to sharpen skills outside of class
- Explored topics including SQL injection, cross-site scripting (XSS), Active Directory attacks, and LLM security

SKILLS

Security Tools: Nmap, Metasploit, Wireshark, Suricata (IDS), Hashcat, sqlmap, Kali Linux, Windows Event Viewer
Security Practices: Log analysis, intrusion detection, vulnerability assessment, risk management, MITRE ATT&CK, STIX
Cloud & Systems: AWS (EC2, IAM, VPC, security groups), Linux, Windows, VMware
Programming: Python, C, C++, MySQL
